Gondola Shelving

Brand:
Product Code: 75783
Availability: In Stock
Weight: 0.00kg
Dimensions: 0.00cm x 0.00cm x 0.00cm

Short Description
Gondola shelving is a versatile, free-standing storage solution commonly used in retail environments to display products. With adjustable shelves and double-sided functionality, it is ideal for maximizing floor space and enhancing product visibility.

Description
Gondola shelving is a highly adaptable and efficient shelving system widely used in retail stores to showcase products in an organized and visually appealing manner. These free-standing shelves typically feature a sturdy metal frame with adjustable shelves on one or both sides, making them suitable for a variety of store layouts and product displays.

The design includes a base and vertical panels, often perforated or slotted, allowing shelves to be positioned at different heights to accommodate products of various sizes. Gondola shelving is ideal for creating aisles, wall displays, or end-cap displays, offering flexibility for retailers to optimize their floor space. It is available in single-sided configurations for wall placement and double-sided options for central aisles, making it a versatile choice for diverse retail settings.

Constructed from durable materials like steel, gondola shelving is designed to withstand the rigors of daily use while maintaining a professional appearance. Additionally, it can be customized with accessories such as hooks, baskets, or signage to enhance functionality and branding. Its combination of durability, adjustability, and visual appeal makes gondola shelving a staple for supermarkets, convenience stores, pharmacies, and more.

Specifications
Material: Sturdy steel or metal construction.

Load Capacity: Typically supports up to 70–120 kg per shelf, depending on the design.

Height: Common heights range from 1.2 to 2.4 meters.

Depth: Shelf depths usually range between 300 mm and 600 mm.

Width: Shelf widths vary from 900 mm to 1200 mm.

Configuration: Available in single-sided (for walls) or double-sided (for aisles).

Adjustable Shelves: Shelves can be repositioned to fit products of varying sizes.

Finish: Powder-coated for durability and a clean, professional look.

Accessories: Compatible with hooks, baskets, dividers, and signage for added versatility.
